

PUBLICATIONS:

1. Books:

- Thoracic Surgery for Nurses, K. Moghissi 1982 Published by Kimpton.
- Enteral and Parenteral Nutrition for Nurses, K. Moghissi & J. Boore 1983. Published by Heinemann Medical Books.
- Essentials of Thoracic and Cardiac Surgery, K. Moghissi. Published by Heinemann Medical Books. 1986.
- Moghissi's Essentials of Thoracic and Cardiac Surgery (second edition). Edited by K. Moghissi, J.A.C. Thorpe, & F. Ciulli. Published by Elsevier Science BV, Amsterdam. 2003

2. Chapters in Books:

- Reflux stricture of the oesophagus. It's surgical treatment. Surgical review 1. Edited by JSP Lumley, JL Craven, Pitman Medical 1979.
- The Superior Vena Cava Syndrome in Lung Cancer. International Trends in General Thoracic Surgery. Edited by Delarue and Eschapasse. Page 146-153 Published by WB Saunders Co 1985.
- Esophageal Problems - Use of Nutritional Support. Moghissi et al. Nutrition in Clinical Surgery. Second Edition. Edited by Mervyn Deitel, page 303-319. Published by Williams and Wilkins 1985.
- Emergency medical services - the flying ambulance. K Moghissi and M Fozard. International trends in General Thoracic surgery. Eds WR Webb and A Besson, page 1903-1906, 1989. Published by CV Mosby Co.
- Tissue diagnosis and treatment of malignant pleural effusion. International trends in General Thoracic surgery, Edited by Jean Deslauriers and Leon K Lacquet. Volume 6, chapter 32, pages 397-408. Published by CV Mosby Co 1990.
- Peri-operative nutritional management of thoracic surgical patients. K Moghissi. International trends in General Thoracic surgery, Current Topics, Vol 2, Peri-operative Care, eds RM Peters and J Toledo 1992.

- Image-Guided Therapy Systems (Chapter 16: Laser). Published by Artech House to develop this edited book as part of “Engineering in Medicine & Biology” bioengineering book series edited by Dr Martin Yarmush. 2008.
- Advances in Photodynamic Therapy: Basic, Translational and clinical. The Role of PDT in Lung Cancer Chapter 23. Publisher Artech House. 2008.

GENERAL CARDIOVASCULAR, THORACIC & PULMONARY SURGERY: PRESENTATIONS

1. Renal changes in perfusion and hypothermia. K Moghissi. Paper read at the symposium on Extra-Corporeal Circulation and Hypothermia. Southampton (1966).
2. Recent advances in cardiac surgery. K Moghissi. Paper given to the British Association for the advancement of Science. Nottingham (1966).
3. Renal changes in extra-corporeal circulation of long and short duration. K Moghissi. Paper read to the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland. (September 1967).
4. Renal dysfunction following open-heart surgery. K Moghissi. Paper given at the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland Annual General Meeting, Oxford (1968).
5. Laceration of the lung following blunt trauma to the lung. K Moghissi. Paper presented at the Annual Meeting of the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, Belfast (1969).
6. Tricuspid incompetence and its management. K Moghissi. Presented to the Annual Meeting of the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, London (1970).
7. Tracheo-bronchial reconstruction with the use of pericardium-covered Marlex Mesh. K Moghissi. Presented at the Annual Meeting of the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, Cambridge (1973).
8. Tracheo-bronchial reconstruction with the use of a graft. K Moghissi. Presented to the Annual General Meeting of the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, Leeds (1978).
9. Les indications et le type d'operation pour les emphysemes bulleux. K Moghissi and S Khoury. Journees Provinciales de la societe francaise de la tuberculose et des maladies respiratoires (May 1979).
10. Supplementary parenteral nutrition in disseminated cancer of the lung treated by chemotherapy . K Moghissi, P Teasdale paper presented to the 1st European Congress on Enteral and Parenteral Nutrition. Published in the proceedings of the congress Stockholm 1979.
11. Unusual types of benign tracheal stenosis. K Moghissi Paper presented to the Societe de Chirurgie Thoracique et Cardi-vasculaire de Langue Francaise March 1981.

**GENERAL CARDIOVASCULAR, THORACIC & PULMONARY SURGERY
PRESENTATIONS CONT'D**

12. K Moghissi, I Leighton, F Strugnell, M Dench and C H Dash. Prophylactic antibiotics in chest surgery - comparison between cefuroxime and magnapen. Current Chemotherapy and Immunotherapy. Proc 12th International Congress of Chemotherapy, Florence, Italy 19 - 24 July 1981.
13. Are prophylactic antibiotics justifiable in pulmonary surgery. K Moghissi Paper presented at the European Society of Pneumology, Knokke/Bruges, 1982.
14. Bronchoplastic operations. K Moghissi. Paper given at the European Society of Pneumology knokke/Bruges 1982.
15. Management of post-intubation tracheal injuries. K Moghissi Paper given to the British Thoracic Society, Cambridge June 1983.
16. Innominate to right atrial bypass graft for surgical management of malignant superior vena caval obstruction. K Moghissi. Presented to the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, London September 1983.
17. Non-traumatic emergency cardiac tamponade. K Moghissi. Paper given to the Hungarian Surgical Society Pecz Hungary July 1984.
18. Surgical aspect of malignant pleural effusion. K Moghissi. Paper given to European Society of Pneumology, Basel, Switzerland September 1984.
19. Prophylactic antibiotics in Pulmonary surgery. K Moghissi. Paper given at the international Society of Chemotherapy Kyota Japan June 1985.
20. Management of severe chest injuries. K Moghissi Lecture given at the Critical Care Conference, London July 1985.
21. The limits of resectional surgery in lung cancer. K Moghissi. Presented to the European Society of Pneumology Amsterdam September 1987.
22. Tracheo-oesophageal fistula. K Moghissi Presented to video Revista de Cirugia Barcelona Spain 1987.
23. Block excision of the lung and chest wall in T3 lung cancer. K Moghissi and D Pender. Presented to the 6th Congress of the European Society of Pneumology Amsterdam September 1987.
24. Surgical management of superior vena caval syndrome. K Moghissi. Presented to the European Society of Pneumology Budapest 1988.

**GENERAL CARDIOVASCULAR, THORACIC & PULMONARY SURGERY
PRESENTATIONS CONT'D**

25. Management of tracheal lesions. K Moghissi and E Neville. Presented to the European Association for Cardiothoracic Surgery Meeting, Bordeaux September 1988
26. Surgical infection, nosocomial infection. The role of cephalosporins in the control of hospital acquired infections. K Moghissi. Presented to the Malaysia Society of Infectious Diseases & Chemotherapy and The College of Surgeons of Malaysia. Malaysia and Singapore. July.1989.
27. The role of peri-operative antibiotic therapy in prophylaxis. Presented to the Malaysia Society of Infectious Diseases & Chemotherapy and The College of Surgeons of Malaysia. Malaysia and Singapore. July.1989.
28. Lymphadenectomy in lung cancer. K Moghissi. Presented to the 12th Working Party Meeting of Thoracic Surgery of the Society of General Surgery of the Society of General Surgery of the GDR 12-15 June 1990.
29. Mediastinal infections and their management. K Moghissi 1990 Rome.
30. Controversial aspects of surgery for lung cancer. K Moghissi. Presented to the European Society of Pneumology London September 1990.
31. Nutritional management of surgical cancer patients. K Moghissi Yorkshire Regional Cancer Organisation Guest Lecture. Leeds Course in Clinical Nutrition September 1990.
32. Management of tracheal lesions. K Moghissi. Presented to the European Respiratory Society Brussels September 1991.
33. Results of a randomised trial of resectional surgery versus surgery + Post-operative (on behalf of the MRC) European Respiratory Society, Nice October 1994.
34. Muscle sparing thoracotomies. K Moghissi. Post-graduate lecture, European Association for Cardiothoracic Surgery, The Hague 1994.
35. Video -assisted thoracoscopic surgery. K Moghissi. Combined Northern and Yorkshire Thoracic Conference May 1994.
36. Thoracoscopic surgery. K Moghissi. European Thoracic Surgery Club, Bristol May 1994.
37. Surgery of non-small cell lung cancer. K Moghissi, Leeds University Conference, June 1994.

**GENERAL CARDIOVASCULAR, THORACIC & PULMONARY SURGERY
PRESENTATIONS CONT'D**

38. Tracheal resection and reconstruction. DAC Sharpe, K Moghissi. A review of 82 patients. European Association for Cardiothoracic Surgery 9th Annual Meeting, Paris, France September 1995.
39. The role of post-operative radiotherapy in non-small cell lung. Medical Research Council Lung Cancer Working Party. R.J. Stephens, D.J. Girling, N.M. Bleehen, K. Moghissi, H.M.A. Yorsef and D. Machin. Paper presented at the European Respiratory Society Meeting, Nice, France. 1995
40. Annual Meeting of The European Association of Cardiothoracic Surgery, Oslo 1999.
41. Oesophago-airway fistula. Lecture to the 14th Annual Meeting of the European Association of Cardiothoracic Surgery, Frankfurt, September 2000.
42. Respiratory system complications of Gastro Oesophageal Reflux Disease. Post-Graduate presentation at the ERS Annual Congress, 14-18 September 2002. Stockholm.
43. What is the best treatment for endobronchial/endotracheal metastases? Presented at the ERS Annual Congress, 27-30 September 2003, Vienna.

THE OESOPHAGUS - PRESENTATIONS

1. Oesophageal stricture in patients with left atrial enlargement .Annual meeting of the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, London (1970).
2. Misuse of the Mousseau Barbin tube. Presented at the Annual General Meeting of Thoracic and Cardiovascular Surgeons, Manchester (1976).
3. Conservative surgery for reflux oesophagitis with stricture - A comparison between two methods. Presented to the Annual General Meeting of the Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, London (1977).
4. Intravenous feeding in patients with carcinoma of the oesophagus undergoing surgery. Journees de Nutrition de Forcilles (March 1978).
5. Parenteral feeding in patients with carcinoma of the oesophagus treated by surgery : Energy and Nitrogen requirements. Presented to the First European Congress on Enteral and Parenteral Nutrition, Stockholm (1979).
6. Observations on high stricture of the oesophagus with particular reference to columnar epithelium lined mucosa. Presented to the Annual General meeting of the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, Coventry (1979).
7. Stenoses hautes de l'oesophage thoracique et leur traitement chirurgical. Presented to the Academie de Chirurgie Paris (1980).
8. Conservative surgery of reflux stricture of the oesophagus associated with hiatal hernia and short oesophagus. Presented to the Royal Society of Medicine, London (February 1981).
9. A conservative surgical method for reflux stricture associated with short oesophagus . Paper given to the Thoracic Society Summer Meeting, St Andrews University, Scotland (1981).
10. Treatment of cancer of the oesophagus with concentrated pre-operative radiotherapy followed by early operation. Paper given at the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland Annual General Meeting, Newcastle (1981).
11. Comparison between pre-operative enteral and parenteral feeding in patients with cancer of the oesophagus undergoing surgery. Presented at the European Society of Parenteral and Enteral Nutrition, Vienna, Austria (1982).

THE OESOPHAGUS – PRESENTATIONS CONT'D

12. Re-operation on the oesophagus. Paper given to the International Thoracic Surgery Conference, Rome (June 1984).
13. Carcinoma of the oesophagus treated by pre-operative radiotherapy and surgery. Paper given to Thoracic Surgery and Endoscopy Meeting, Napoli, Italy (June 1984).
14. Nutritional management of patients with cancer of the oesophagus undergoing surgery. Presented to the International Society for Diseases of the Oesophagus, Rome (June 1984).
15. Instrumental perforation of the oesophagus and its management. Paper given to the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, Dublin (October 1984).
16. Barrett's oesophagus facts and fiction. Lecture given to Royal Postgraduate Medical School, London (March 1985).
17. The value of pre-operative parenteral nutrition in patients with carcinoma of the oesophagus undergoing surgery. Paper presented to the Nutritional Society, Aviemore, Scotland (April 1984).
18. Management of reflux stricture of the oesophagus. Paper given at University of Genoa, Italy (April 1985).
19. Management of instrumental perforation of the oesophagus. Presented to the Joint Meeting of The Royal College of Surgeons of Edinburgh, French Surgical Society and Egyptian Surgical Society, Deauville, France (June 1985).
20. Management of instrumental perforation of the oesophagus. Paper given to Society of Pneumology Stressa, Milan (September 1985).
21. Nutritional management of instrumental perforation of the oesophagus. Presented to the Society of Pneumology Stressa, Milan (September 1985).
22. Management of dysphagia. Lecture given to Huddersfield Medical Society (October 1985).
23. Barrett's oesophagus : Does it exist? Is it congenital? Paper given to the Society of Thoracic and Cardiovascular Surgeons of Great Britain and Ireland, London (October 1985).
24. Barrett's oesophagus : Does it exist? Is it congenital? Paper presented at the International Oesophageal Week, Munich (September 14-19, 1986).

THE OESOPHAGUS – PRESENTATIONS CONT'D

25. Adeno-carcinoma of the oesophagus and cardia. Paper presented to Sociedade Portuguesa de cirurgia, Lisbon (March 1987).
26. Surgical management of achlasia of the cardia. Paper presented to the 6th Congress of SEP Amsterdam (September 1987).
27. Congenital tracheo-oesophageal fistula. Paper presented to Video-Revista de Cirugia, Spain (November 1987).
28. Treatment of peptic stenosis of the oesophagus. Paper presented to 10th International Meeting of Digestive Surgery, Madrid (May 1987).
29. Re-operation after anti-reflux surgery. Paper presented to 10th International Meeting of Digestive Surgery, Madrid (May 1987).
30. Lye stricture of the oesophagus. Paper presented to 10th International Meeting of Digestive Surgery, Madrid (May 1987).
31. Surgical treatment of cancer of the cervico-thoracic segment of the oesophagus. Paper presented to 10th International Meeting of Digestive Surgery, Madrid (May 1987).
32. Surgical management of reflux stricture of the oesophagus. Paper given to the Association of Thoracic and Cardiovascular Surgeons of India (February 1988).
33. A Study of the origin of adenocarcinoma in the mid thoracic oesophagus. Paper given to the Society of Cardiothoracic Surgeons of Great Britain and Ireland (September 1988).
34. Management of unresectable oesophageal cancer. Paper given to the XXI Congresso della Societa Italiana di Chirurgia Toracica, Rome (May 1988).
35. Reflection on Barrett's oesophagus and associated conditions. Paper given to Journees de Chirurgie Digestive, France (March 1989).
36. Malignant potential of Barrett's oesophagus. Paper given to Exeter Oesophageal Conference (2 June 1989).
37. Factors influencing long survival in patients with oesophageal carcinoma undergoing resectional surgery. Presented as a poster at the European Association for Cardiothoracic Surgery meeting, Munich (October 1989).
38. Management of unresectable oesophageal cancer. Paper presented to the Fourth World Congress of the International Society for Diseases of the Oesophagus, Chicago (September 1989).

THE OESOPHAGUS – PRESENTATIONS CONT'D

39. Operations for reflux stricture of the oesophagus. Presented to the meeting of the Thoracic and Cardiovascular Surgeons of India (February 1990).
40. Barrett's oesophagus and its complications. Paper presented to the VI International Postgraduate course on Esophageal Diseases, Padova, Italy (March 1990).
41. Oesophageal carcinoma. Paper presented to 12th Working Meeting Leipzig DDR Society of General Surgery (12-15 June 1990).
42. Enigma of adenocarcinoma of the oesophagus and Barrett's columnar epithelium. Paper presented to 15th International Cancer Congress UICC Hamburg (16-22 August, 1990).
43. Results of surgical resection in early cancer of the oesophagus and cardia. Paper presented to the Society of Cardiothoracic Surgeons of Great Britain and Ireland, London (6-8 March, 1991).
44. Oesophago-airway fistula. Presented to the European Association for Cardiothoracic Surgery Meeting, The Hague (1994).
45. Resectional surgery in carcinoma of the oesophagus and cardia : What influences long-term survival. Presented at the European Association of Cardiothoracic Surgery Meeting, The Hague (1994).
46. Achlasia of the oesophagus. Paper presented to The Thoracic Society. (1988)
47. Treatment of oesophageal cancer – where are we? International conference on Modern Trends of Thoracic Surgery, Krasnodar, Russia, 23-24 September 2000.
48. Malignant Oesophago-Airway fistula. European Association of Cardiothoracic Surgery 14th Annual Meeting, Frankfurt. 2000.
49. What's new in Barrett's Oesophagus: current controversies. Presented at the Post Graduate Course, 23rd Panhellenic Congress of Surgery International Surgical Forum, Athens 7th-11th November 2002.

LASER SURGERY & TREATMENT:

PRESENTATIONS AND PUBLICATIONS

LASER SURGERY & TREATMENT - PRESENTATIONS

1. YAG laser in the management of tracheo bronchial lesions. Presented to the Society of Cardiovascular Surgeons of Great Britain and Ireland, Norwich, September 1987.
2. Management of malignant tracheal lesions using endoscopic laser. Presented to the British Thoracic Society, Edinburgh, July 1987.
3. Indications of the use of non-contact Nd YAG laser in pulmonary surgery. Presented to the British Laser Association 28-30 January 1987, Edinburgh.
4. Experience with bronchoscopic laser therapy in obstructive tracheo-bronchial lesions. Presented to the British Laser Association 28-30 January 1987, Edinburgh.
5. Experience with bronchoscopic laser therapy in obstructive tracheo-bronchial lesions. European Society of Pneumology, September 1987, Amsterdam.
6. The use of non-contact YAG laser in excision of pulmonary 'coin' lesions. Presented to the European Society of Pneumology. September 1987, Amsterdam.
7. The use of YAG laser (non-contact) in pulmonary surgery. Presented to the 11th Congress of Thoracic Surgery, East Germany, February 1988.
8. Local excision evaporation of pulmonary nodular lesions with the use of non-contact YAG laser. Presented to the British Thoracic Society, Newcastle, July 1988.
9. An anatomopathological study of the effects of non-contact mode of YAG laser on pulmonary tissue and its comparison with electro-diathermy. Presented to the British Laser Association Meeting, July 1988.
10. Local excision evaporation of pulmonary nodular lesions with the use of non-contact YAG laser. Presented to the British Laser Association Meeting, July 1988.
11. Experience in bronchoscopic laser treatments in tracheo-bronchial lesions. Presented to the British Laser Association Meeting, July 1988.
12. The use of non-contact YAG laser in the treatment of tracheo-pulmonary lesions Presented to the International Conference on Quantitative Methods in Pneumology, Moscow, March 1989.
13. Bronchoscopic management of tracheo-bronchial lesions with YAG laser. Presented to the International Conference on Quantitative Methods in Pneumology Moscow, March 1989.

LASER SURGERY & TREATMENT – PRESENTATIONS CONT'D

14. Bronchoscopic laser treatment for obstructive tracheo-bronchial lesions. Presented to the Annual Conference of the Association of Thoracic and Cardiovascular Surgeons of India, February 1989.
15. YAG laser in pulmonary surgery. Experience with 100 patients. Presented to the Annual Conference of the Association of Thoracic and Cardiovascular Surgeons of India, February 1989.
16. Laser Surgery for bronchogenic carcinoma. Presented to the Symposium on Lung Cancer, November 1989, Amsterdam.
17. Combined laser therapy and brachytherapy for palliation of oesophageal carcinoma. Presented to the International Congress Laser 90, Manchester, February 1990.
18. Endoscopic laser therapy for obstructive tracheal lesions. Presented to the International Congress, Laser 90, Manchester, February 1990.
19. The use of YAG laser for local excision of pulmonary nodular coin lesions. Presented to the International Congress, Laser 90, Manchester, February 1990.
20. Nd YAG laser in thoracic surgery. Presented at the meeting, K Moghissi. The use of PDT in bronchial cancer. Presented to the British Laser Association Meeting, Leeds, 1991.
21. Endoscopic laser in lung cancer - How I do it? Presented to the Yorkshire Thoracic Society, Pontefract, 1992.
22. Endo-bronchial laser treatment. Lecture at The Royal Society of Medicine (Breathing Club) March 1993.
23. Thoracoscopic use of YAG laser. Lecture at The Royal Society of Medicine (Breathing Club) March 1993.
24. Concentration of PHP in neoplastic and normal tissues following intravenous administration in patients. Paper presented to the British Medical Laser Association, Brighton, April 1993.
25. PDT in advanced bronchial carcinoma. Presented to the British Medical Laser Association Annual Meeting, Brighton April 1993.
26. Thoracoscopic use of YAG laser in pneumothorax and emphysematous bullae. Paper given to the Scientific Meeting of the European Respiratory Society, Florence, September 1993.

LASER SURGERY & TREATMENT – PRESENTATIONS CONT'D

27. A new diffuser/applicator for PDT in oesophagus. Poster presented at the Annual Scientific Meeting of YCRC York, December 1993.
28. Concentration of photosensitiser in cancer and normal tissues. Poster presented to the Annual Scientific Meeting of YCRC York, December 1993.
29. Endoscopic laser therapy in bronchial cancer, comparison between PDT and YAG laser. Lasers in Medical Science. 1993
30. Thoracoscopic use of YAG laser in intractable pneumothorax. European Society of Cardiothoracic Surgery. 1993
31. Photodynamic therapy in oesophageal cancer. Paper presented to the Photodynamic Conference Leeds, December 1993.
32. Endoscopic laser for advanced bronchial carcinoma: A comparison between PDT and YAG. Presented at the International Conference - Photodynamic therapy and medical laser applications, Milan, June 1992.
33. Thoracoscopic use of laser in ablation of emphysematous bullae and in pleurodesis. Presented at the International Conference - Photodynamic therapy and medical laser application. Milan, June 1992.
34. Local excision of pulmonary nodular lesions. Presented at the International Conference - Photodynamic therapy and medical laser applications, Milan 1992.
35. Photodynamic therapy for broncho-pulmonary cancer. Presented to Yorkshire Thoracic Society, Huddersfield, 1994.
36. Photodynamic therapy in lung and oesophageal cancer. Guest lecture. Leeds University/Cookridge Hospital, June 1994.
37. Use of YAG laser in tracheal lesions. European Association for Cardiothoracic Surgery. The Hague 1994.
38. Photodynamic therapy of oesophageal cancer. Presented to British Medical Laser Association, Dublin, September 1994.
39. A new diffuser/applicator for PDT in oesophagus. Presented at the 5th International Photodynamic Association Meeting, Budapest. 21-24 September 1994.
40. Photodynamic therapy of lung cancer. Symposium on use of laser. Barcelona, October 1994.

LASER SURGERY & TREATMENT – PRESENTATIONS CONT'D

41. Use of YAG laser in thoracic medicine and surgery. Symposium on use of laser, Barcelona, October 1994.
42. Photodynamic therapy (PDT) for inoperable oesophageal cancer. European Association for Cardiothoracic Surgery 9th Annual Meeting Paris, France, September 1996.
43. Treatment of malignant tracheo bronchial lesions using endoscopic YAG laser and PDT in sequence: experience in 36 patients. Presented by Tammy Freeman at the European Laser Association meeting, San Remo, Italy 1997
44. Laser Transmyocardial Revascularisation. British Medical Laser Association Scientific Meeting, Harrogate. March 1998
45. Photodynamic Therapy of Oesophageal cancer. British Medical Laser Association Scientific Meeting, Harrogate. March 1998
46. Is there a place for bronchoscopic PDT in advanced lung cancer? 7th Biennial Conference for International Photodynamic Therapy, Nantes, France. July 1998.
47. The place for bronchoscopic PDT in advanced unresectable lung cancer: experience of 100 cases. 12th Annual meeting of The European Association for Cardio-thoracic Surgery, Brussels, 20-23 September 1998.
48. Transmyocardial Revascularisation. Presented at The British Medical Laser Association Associates Group Study Day, Manchester, October 1998.
49. PDT of oesophageal carcinoma. 13th Annual Meeting of The European Association of Cardio Thoracic Surgery Glasgow, September 1999.
50. Yorkshire Laser Centre: experience with Fluorescence Bronchoscopy – initial report. BMLA Focus Group on Photodetection, one day Symposium, November 1999.
51. Yorkshire Laser Center updated results of Fluorescence Bronchoscopy, BMLA Annual Meeting, Bridgend, Wales. 4th May 2000.
52. Complications of Laser Therapy used in the upper aero-digestive tract and for pulmonary lesions. BIOS Meeting, Amsterdam, June 2000
53. Mortality and morbidity related to complications of laser therapy. BIOS Meeting, Amsterdam, June 2000.
54. Complications of laser therapy used in the upper aerodigestive tract and for pulmonary lesions. European Laser Association Annual Meeting, Amsterdam 2000.

LASER SURGERY & TREATMENT – PRESENTATIONS CONT'D

55. Lasers in bronchopulmonary cancer. International conference on modern trends of thoracic surgery, Krasnodar, Russia, 23-24 September 2000.
56. Photodynamic Therapy in broncho-pulmonary cancer. Presented at the Photodynamic Therapy Update Meeting (G.I. Forum), Hilton International Hotel, Manchester, October 2000.
57. The place of PDT in cancer of the oesophagus. Presented at the Photodynamic Therapy Update Meeting (G.I. Forum), Hilton International Hotel, Manchester, October 2000.
58. A study of the antimicrobial action of photosensitisers. Presented to the British Medical Laser Association Annual Meeting, Goole May 2001.
59. The Xillix LIFE lung system and the development of new techniques for in-situ autofluorescence detection. Presented to the British Medical Laser Association Annual Meeting, Goole May 2001
60. 10 years experience in endoscopic Photodynamic Therapy for inoperable cancer of the aero-digestive tract: the lesson learnt. Presented at the IPA 8th World Congress of Photodynamic Medicine, Vancouver June 2001.
61. Has bronchoscopic Photodynamic Therapy any place in bronchopulmonary cancer treatment? Presented at the 8th World Congress of Photodynamic Medicine, International Photodynamic Association, Vancouver June 2001.
62. Endoscopic Photodynamic Therapy in inoperable oesophageal cancer. Presented at the 8th World Congress of Photodynamic Medicine, International Photodynamic Association, Vancouver June 2001.
63. Clinical experience with Photodynamic Therapy in bronchial carcinoma: Patient selection, procedure and outcome. Presented at the PDT Conference, Toronto June 2001.
64. PDT in bronchial carcinoma, Meeting of Groupe Therapeutique Photodynamique Clinique. Paris July 2001
65. Fluorescence Bronchoscopy to detect the early lung cancer development in high-risk asymptomatic individuals: pilot study initial results. The European Respiratory Society Annual Congress, Berlin September 2001.
66. Fluorescence Bronchoscopy for monitoring response to treatment for lung cancer. The European Respiratory Society Annual Congress, Berlin September 2001.

LASER SURGERY & TREATMENT – PRESENTATIONS CONT'D

67. Respiratory complications of Gastro-Oesophageal Reflux Disease, Post-Graduate lecture presented at the European Respiratory Society Annual Congress, 14-18 September 2002. Stockholm.
68. Yorkshire Laser Centre experience in bronchoscopic PDT in bronchopulmonary cancer. Presentation at the ERS Annual Congress, 14-18 September 2002. Stockholm.
69. 12 years experience in endoscopic Photodynamic Therapy of cancer of the aerodigestive tract. The European Association of Cardiothoracic Surgery Annual Meeting, Monaco 21-25 September 2002.
70. What's new in Barrett's Oesophagus: Current controversies. Presented at the Post Graduate Course, 23rd Panhellenic Congress of Surgery. International Surgical Forum, Athens, 7th – 11th November 2002.
71. Photodynamic & laser therapy. Presented at the 23rd Panhellenic Congress of Surgery. International Surgical Forum, Athens, 7th – 11th November 2002.
72. Photodynamic Therapy (PDT) in inoperable oesophageal cancer. European Thoracic Club meeting, Lausanne, May 2003.
73. What is the best treatment for endobronchial/endotracheal metastases? European Respiratory Society Annual Meeting, September 2003. Vienna.
74. The Yorkshire Laser Centre experience in bronchoscopic Photodynamic Therapy (PDT) in bronchopulmonary cancer. Cardiff, June 2003.
75. Procedure-related risks & hazards of endoscopic NdYAG laser & PDT of the upper aero-digestive tract: personal experience and literature review. Presented at the Joint BMLA/ELA International Laser Conference, September 2003. Edinburgh, Scotland.
76. Indications of PDT in lung cancer. Presented at the Joint BMLA/ELA International Laser Conference, September 2003. Edinburgh, Scotland.
77. PDT in oesophageal cancer treatment: experience in 102 patients. Presented at the Joint BMLA/ELA International Laser Conference, September 2003. Edinburgh, Scotland.
78. Surgical treatment of lung cancer. Presented at the MRI Centre, Hull Royal Infirmary. June 2004.
79. Photodynamic Therapy in lung cancer. Presented at the conference: Laser & thoracoscopic treatment in lung cancer, Barcelona, 18th June 2004.

LASER SURGERY & TREATMENT – PRESENTATIONS CONT'D

80. Indications for laser therapy in lung cancer. Presented at the conference: Laser & thoroscopic treatment in lung cancer, Barcelona, 18th June 2004.
81. Photodynamic Therapy (PDT) in lung cancer with disease limited to endobronchial lesions. ERS Annual Meeting, Glasgow September 2004 & British Medical Laser Association Annual Meeting, London, 2004.
82. White light and fluorescence bronchoscopy (FB), cyto/histology and chest radiography in lung cancer high-risk asymptomatic volunteers: A pilot study. ERS Annual Meeting Glasgow September 2004 & British Medical Laser Association Annual Meeting, London 2004.
83. Photodiagnosis & Photodynamic Therapy in oncology with particular reference to lung cancer. Laser Conference, Florence 2004.
84. Photodynamic Therapy for lung cancer: the Yorkshire Laser Centre experience. Laser Conference, Florence, 2004.
85. Photodynamic Therapy in lung cancer with disease limited to endobronchial lesions. Poster presentation at the British Thoracic Society Winter Meeting, London. December 2004.
86. Photodiagnosis and Photodynamic Therapy in oncology. Presented at a one-day meeting. Country Park Inn, Hull, February 2005.
87. The impact of peri-operative management on mortality and morbidity of patients undergoing photodynamic therapy: an institutional review. American Society for Lasers in Medicine & Surgery, Florida. March 2005.
88. Photodynamic Therapy of central type lung cancer: current indications based on 15 years experience and literature review. American Society for Lasers in Medicine & Surgery, Florida. March 2005.
89. Photodynamic Therapy in lung cancer with disease limited to endobronchial lesions. Poster presentation at the Hull York Medical School 2nd Research Conference, York. March 2005.
90. White light and fluorescence bronchoscopy, cyto/histology and chest radiography in lung cancer, high-risk asymptomatic volunteers: a pilot study. Poster presentation at the Hull York Medical School 2nd Research Conference, York. March 2005.
91. Is Photodynamic Therapy a therapeutic option in malignant pleural mesothelioma: a one-day symposium. The Royal Society of Medicine, London. April 2005.

LASER SURGERY & TREATMENT – PRESENTATIONS CONT'D

92. White light and fluorescence bronchoscopy, cyto/histology and chest radiography in lung cancer, high-risk asymptomatic volunteers: a pilot study. Presented at the British Medical Laser Association Annual Meeting, Epsom. May 2005.
93. The contribution of photodiagnosis and photodynamic therapy to lung cancer treatment. 10th World Congress of the International Photodynamic Association, Munich. June 2005.
94. Photodynamic Therapy in lung cancer with disease limited to endobronchial lesions. 10th World Congress of the International Photodynamic Association, Munich. June 2005.
95. The contribution of photodiagnosis and photodynamic therapy to lung cancer treatment. Tetrapyrrolic Discussion Group, University of Hull, July 2005.
96. Contribution of fluorescence bronchoscopy and photodynamic therapy (PDT) to lung cancer treatment. 20th International Congress Laser Medicine: Laser Florence 2005, November, Florence, Italy.
97. Photodynamic therapy (PDT) of central type lung cancer: Current indications based on 15 years experience and literature review. 20th International Congress Laser Medicine: Laser Florence 2005, November, Florence, Italy.
97. Contribution of Fluorescence Bronchoscopy and Photodynamic Therapy to lung cancer treatment. Presented at the Zurich Mini-symposium on Photomedicine, June 2006.
98. Contribution of Photodiagnosis and Photodynamic Therapy to lung cancer treatment. Presented at the First Cambridge International Symposium on Controversies in Thoracic Surgery. Papworth Hospital, Cambridge. June 2006.
99. Photodiagnosis and Photodynamic Therapy in Oncology with particular reference to Gynaecology. Presented at the Humber & Yorkshire Coast Cancer Network Gynae-Oncology Educational Meeting, Hull. July 2006.
100. An overview of the present state of Photodynamic Therapy in Oncology. Presented at the Symposium of Medical Physics, Poland, September 2006.
101. K. Moghissi, Kate Dixon. Overview of the current indications of photodynamic therapy in lung cancer treatment. Presented at the 17th ISLSM & 22nd IALMS International Congress of Laser Medicine, Florence, Italy 8-10th November 2007.
102. K. Moghissi, J A C Thorpe, Kate Dixon. How do the results of photodynamic therapy for early oesophageal cancer compare with those of surgical resection? Presented at the 17th ISLSM & 22nd IALMS International Congress of Laser Medicine, Florence, Italy 8-10th November 2007.

LASER SURGERY & TREATMENT – PRESENTATIONS CONT'D

103. K. Moghissi, K. Dixon & M. Stringer. Update on the current indications and results of Photodynamic Therapy (PDT) for lung cancer treatment. Presented at the inaugural meeting of the European Platform for Photodynamic Medicine, Dubrovnik, Croatia 24th-28th March 2008.
104. K. Moghissi, K. Dixon & M. Stringer. Comparison of Endoscopic Photodynamic therapy (PDT) with surgical resection for early oesophageal cancer. Presented at the inaugural meeting of the European Platform for Photodynamic Medicine, Dubrovnik, Croatia 24th-28th March 2008.
105. K. Moghissi. Photodynamic Therapy (PDT) and the Thoracic Surgeon. Presented at the World Congress for Cardio-Thoracic Surgery, Kos, Greece 30th April-3rd May 2008.
106. K. Moghissi. Photodynamic therapy (PDT) for adenocarcinoma of the pharyngo-oesophageal junction and cervical oesophagus in a patient with an oesophagus lined entirely by columnar epithelium (Barrett's). A case report. UK PDPDT Group in association with The British Medical Laser Association. 10th June 2008
107. K. Moghissi. Photodynamic Therapy (PDT) for pre-malignant and malignant oesophageal lesions: can it compete with surgery? Presented at the European Medical Laser Association Annual Meeting, Helsinki 23-24 August 2008.
108. K. Moghissi. The role of Photodynamic Therapy (PDT) in pre-malignant and malignant oesophageal lesions. Presented at the 7th International Symposium on Photodynamic Therapy and Photodiagnosis in Clinical Practice, Brixen, Italy. 7-11 October 2008.

VIDEOS

- Endoscopic photodynamic therapy in bronchial carcinoma.
- The use of YAG laser for local excision of pulmonary nodular (coin) lesions.
- Thoracoscopic use of YAG laser in pneumothorax and bullous lung disease.
- Use of YAG laser in pulmonary surgery.

INTEREST AND HOBBIES:

- Languages:
Fluent in English, French and Farsi. Working knowledge of Italian. Knowledge of German, Arabic and Latin.
- Music:
Studied in Geneva Conservatoire Populaire for 14 years and obtained a degree of Diplome de Capacite in violin. Has written several articles on the works of various composers.
- Writing and reading:
In subjects mostly connected to art and literature.
